References

Mayern Spółka z o.o. made for EVPS sp. z o.o. It made a website.

The project consisted of the following elements and functionalities:

1. UI and UX design of the website
2. preparation of graphics for the website
3. preparation of the company logo
4. programming of the web page, according to the prepared graphic design, for Firefox, Google Chrome, Opera browsers for current or newer versions
5. uploading the website to a web server
6. configuration of all other servers and environments
7. integration with the system logging into the administration panel and loader user panel through the web site
8. website optimization for SEO (positioning), for computers and mobile devices
9. transferring evps.com.pl domain to a new operator (domain registrar) and extending the domain for another 2 years

We are satisfied with this cooperation. The project was completed on time. There were no problems with communication. The company's employees quickly and efficiently responded to technical problems and we were informed about it on an ongoing basis. We recommend cooperation with Mayern.
