Mayeryn sp. z o.o.  
ul. Siennicka 25  
80-758 Gdańsk  
NIP: 7010963117

### Reference

We are a manufacturer of highly specialized cables for the mining and railroad industries, as well as industrial cables exposed to extremely harsh working environments.

Mayeryn carried out for us the modernization of a cable production line, which included the installation of a new HMI panel cooperating with a PLC with Mayeryn software and the implementation of a control program, as well as testing the production line.

The preparation of the project, implementation and testing is assessed positively, and what is particularly important to us, the work requiring, among other things, immobilization of the line was carried out in such a way that we could carry out our production also on weekends, during the period of production concentration, in addition to urgent execution of orders for our customers.

We recommend Mayeryn's services.
