## Reference

The Mayeryn Ltd. company developed and implemented a Recruitment Portal along with a dedicated hosting and technical support service for the City Hall in Zabrze. The Recruitment Portal is a tool for comprehensive handling of recruitment processes in the City Hall, meets the requirements of WCAG 2.1 and is prepared to provide service for 1 million users.

Within the scope of the order the company performed the following tasks:

- pre-implementation analysis,
- system architecture design,
- UI/UX project,
- graphic design of the Portal,
- software implementation and testing,
- implementation in the test and production environment,
- conducting the trainings,
- maintenance and technical support of the Portal,
- providing the hosting.

The realization and implementation of the Recruitment Portal went well. The service was performed in a timely and proper manner. The company's employees efficiently respond to technical problems. I recommend cooperation with Mayeryn Ltd. company.
